

Managed Infrastructure and Cloud Services Overview

Aktion Associates' decades of experience as a technology provider focused on the construction, distribution, manufacturing, and architectural engineering industries has afforded us unparalleled business application knowledge. Along with our nationally recognized business software consulting practices, we have been awarded high marks for excellence in our technology and managed services programs, as well as for our IT vendor relationships.

Aktion's MICS Division Sales and Service team offers a full range of IT products and services to ensure that critical systems are always operational and supporting core business functions. Whether you need expert application support and advisement, support for a specific IT initiative, or ongoing maintenance and full management for all technology at your company, Aktion has the skill and industry knowledge to meet your IT needs.

Cloud Services

Aktion has two, company-owned enterprise class data centers able to host your workloads in a safe, secure, fully redundant environment.

Managed Services

With several levels of managed service plans – including Aktion's Managed Platform and Application Support agreement, Aktion takes responsibility for system monitoring, anticipating potential issues, and even application support to keep your business software operational, available, and secure.

Cloud Readiness Assessment

This evaluation will provide a network assessment and recommendations for WAN optimization, security, and shared data architecture.

Hybrid Cloud

Take some of your workloads to the cloud and leave others on-prem to optimize your technology environment.

Security Services

Anti-spam, anti-phishing, endpoint detection & response, employee education, managed firewalls, and identity management/MFA to keep your data secure.

Infrastructure/Software Licensing

Refresh and grow your infrastructure with our offerings, including HPE Servers and Storage, VMware, Cisco, SonicWall, Microsoft, and others.

Microsoft 365 Migrations & Support

Let us help you modernize operations with SharePoint, OneDrive, Teams, Exchange, Azure Active Directory, and Security & Device Management.

vCIO Strategic IT Consulting

Our technical experience within the industries we support allows us to offer strategic guidance and planning assistance to keep your technology current, relevant, and in budget.
